

Email Marketing

Targeted emails that get opened, get read and get results.

Want to reach an engaged, diverse professional audience? We have millions opt-in, registered members who provide us with valuable information about their professional lives – and we can use those details and data to target the right people for your email messages.

Our members are in the midst of career and life changes, making them extremely open to new products, services and offers. **Here are just a few examples:**

- Financial Services
- Professional Development
- Consumer Products
- Education

Our industry-leading email campaigns are effective, affordable and designed for maximum performance:

- Fresh, relevant member data
- Flexible criteria
- Seamless campaign execution
- Performance Reporting

Targeting Criteria

| | |
|-----------------|-----------------|
| Gender | Salary |
| Education Level | Geography |
| Industry | Executive Level |
| Occupation | |

Nexxt allows us to reach premium audiences that deliver high value results. They understand our needs and requirements and are consistently analyzing results to improve campaign performance.

Complimentary Business Report: Supply Chain Solutions

This paper discusses how online businesses can instill trust and confidence in their websites, protect valuable brands, and safeguard customers' sensitive information. It is critical to choose e-commerce security solutions that continually evolve and extend to address a range of ever-changing needs. SSL-based security platforms with solid track records of meeting new challenges are the best way to defend and future proof, e-commerce environments against a growing and dynamic Internet threat environment.
